## Experience

---

### Netxjournal

SENIOR CLOJURE DEVELOPER

- Full-stack development using Clojure/Clojurescript
- DevOps work using Hashicorp Suite
- Provisioning and management of infrastructure using Terraform on AWS/GCE/Azure

Remote

Sep 2019 - current

### Gaiwan

SENIOR CLOJURE DEVELOPER

- Writing of training material
- Coaching

Remote

Jul 2019 - current

### Functional Works

SENIOR CLOJURE DEVELOPER (CONTRACT)

- Developed Full-stack using Clojure/Clojurescript, Re-frame, GraphQL
- Developed a GitHub bot to keep repositories synchronized across organizations

Remote

Feb 2019 - Jun 2019

### Studyflow

FULL STACK DEVELOPER (CONTRACT)

- Maintenance of Clojure / Clojurescript application
- Maintenance of self-hosted infrastructure on bare-metal

Remote

June 2018 - current

### Synple

DATA LEAD

- Designed and implemented the Data Pipeline using Clojure and Kafka, along with PostgreSQL and Metabase
- Deployed the data pipeline on AWS using Ansible/Packer and CloudFormation
- Managed a small team of Data Scientists

Amsterdam, The Netherlands

Oct 2017 - May 2018

### Studyflow

FULL STACK SOFTWARE DEVELOPER

- SPA development using Reagent (React) and Re-frame
- Developed an Event-Sourcing/CQRS library in Clojure: *rill-event-sourcing*
- Designed and implemented the infrastructure on bare metal with Ansible
- Developed a Rails-based authoring & publishing application
- Managed a small team of developers and participated in strategic decisions

Amsterdam, The Netherlands

May 2014 - May 2017

### ASML

METROLOGY DESIGN ENGINEER

- Implemented software for the metrology department of EUV lithography machines NXE:3300 and NXE:3350B

Eindhoven, The Netherlands

Nov 2013 - May 2014

## Education

---

### Universiteit Utrecht

MSC. IN MATHEMATICAL SCIENCES

- Specialization: Scientific Computing
- Master thesis: *Iterative sparse matrix partitioning*, under the supervision of Prof. dr. Rob H. Bisseling (Parallel Computing)

Utrecht, The Netherlands

Sep 2011 - Oct 2013

### Università degli Studi di Ferrara

BS IN MATHEMATICS

- Final grade: 110/110 cum Laude
- Bachelor thesis: *Total Variation image denoising from Poisson data: Split Bregman methods and Alternating Extrageadient methods* under the supervision of Dr. Prof. Valeria Ruggiero (Numerical Analysis)

Ferrara, Italy

Sep 2008 - Jul 2011

### Coursera

DEEP LEARNING SPECIALIZATION

- **Courses completed:** Machine Learning, Neural Networks and Deep Learning, Improving Deep Learning Networks, Structure Machine Learning Projects, Convolutional Neural Networks

Sep 2017 - Dec 2017

## Skills

---

<b>Development</b>	Clojure, Clojurescript, C/C++, Ruby (Rails and Sinatra), Python, Shell scripting React, CQRS, Event Sourcing, Kafka, PostgreSQL, Redis
<b>DeOps</b>	Linux System Administration, Ansible, AWS CloudFormation, Docker, HashiCorp Suite (Terraform, Consul, Vault, Nomad, Packer), Gitlab CI/CD configuration & administration, bare-metal
<b>Languages</b>	Italian, English, Dutch (basic level), Greek (basic level)

## Extracurricular Activity

---

### Wikipedia

ADMINISTRATOR & CONTRIBUTOR

Sep. 2006 - Jan 2017

- 25000+ edits on Wikipedia and Wikimedia projects in various languages

### Various publications and websites

PHOTOGRAPHER

- Worked professionally for the summer of 2005
- Pictures featured in National Magazines and various websites

## Honors & Awards

---

2008    **Roberto Ruffilli Prize**, for graduating with the highest mark

Cesena, Italy

## Presentations

---

### ClojureD 2020

SPEAKER

Berlin, Germany

Feb 2020

- Life in parens: simulating an ecosystem with Clojure
- Slides: <https://tinyurl.com/life-in-parens>

### Dutch Clojure Meetup - September 2015

Amsterdam, The Netherlands

SPEAKER

Sep. 2015

- **Event Sourcing at Studyflow / 2:** Discussion of our Event Sourcing framework, with focus on the advantages and drawbacks of having a in-memory read-model
- Slides: <https://speakerdeck.com/helios/2>

### Dutch Clojure Meetup - April 2017

Amsterdam, The Netherlands

SPEAKER

Apr. 2017

- **Event Sourcing, CQRS and scalability - a status update:** Discussion of the challenges in scalability of our Event Sourcing framework after three years in production with half a billion events, with particular attention to the different strategies in scaling reads and writes.
- Slides: <https://speakerdeck.com/helios/event-sourcing-cqrs-and-scalability-a-status-update>

## Interests

---

Dungeons & Dragons, 3d printing, synthesizers and board games
